— THE REAL PROBLEM

The stage no one talks about... *but everyone goes through.*

> *"I post consistently but my videos get 50 views."*

> *"My content is good. I know it is. But nobody sees it."*

> *"I've been at this for a year and I'm ready to quit."*

Most people give up right here. Not because they're not talented — but because the early stage of growth is brutally unfair.

IT'S NOT YOUR CONTENT.

It's your *visibility.*

Platforms favour established accounts. New creators get buried before they get a chance. The algorithm isn't against you — it just doesn't know you exist yet.

YOUR CURRENT VISIBILITY

18%

Most new creators are stuck here

Low Reach
Few people see your content

Low Engagement
Even good content gets ignored

Low Momentum
Hard to grow without initial push

The good news? This stage is temporary — with the right strategy, you can break through.

— ABOUT INFLORAX

Every creator deserves a *fair start.*

Most creators don't fail because they lack talent. They fail because the **early stage of growth is brutally unfair** — platforms favour established accounts and bury new creators before they get a chance.

We built Inflorax to change that. Strategic content promotion paired with real creator support — so your content reaches more people while you focus on creating.

RADICAL TRANSPARENCY

What we *don't* do.

We'd rather lose a sale than overpromise.
Here's exactly what you won't get from **Inforax**.

We don't buy followers

Every number you gain comes from real visibility and real interest. No bots, no fake accounts, no inflated vanity metrics that disappear next week.

We don't promise viral

Anyone who guarantees a viral video is lying to you. We promise a real, strategic push — results depend on your content, niche, and consistency.

We don't need your password

Never. Not your Instagram login, not your YouTube credentials, not any account access. We work externally — your account security is never at risk.

We don't lock you in

No subscriptions, no retainers, no 3-month commitments. Pay per campaign. If it works, come back. If it doesn't fit, you're free to walk away.

We don't hide the numbers

Every package shows you estimated results upfront. Use our simulator to see what's realistic for your account before you spend a single dollar.

We don't disappear after payment

You get a full campaign summary at the end — what was done, what moved, and what to do next. Transparent from start to finish.

Honesty first. Results next.
That's how we've built trust with thousands of creators — and why they keep coming back.
